

REMARKS

The Examiner is respectfully requested to enter the foregoing amendment prior to examination of the above-identified patent application.

The amendments to the specification made in this amendment have not been made to overcome the prior art, and thus should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto. Rather, the amendment to the specification was made to include a description of some of the parts of the figures in the specification.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully Submitted,
Higashi TATAMIYA
